

Oceania Cup Rules 2021:

- The competition is held under World Athletics Rules.
- Each Member Federation will select a team to be submitted prior to the start of competition.
- Any athlete not from an Member Federation with a team, will be combined into a Oceania Select Team.
- All selected athletes are eligible to score points for their team.
- Each athlete's competition performance will be converted to points via the World Athletics Scoring Tables.
- If an athlete competes in more than one event, only the best performance will be counted towards the team score.
- Athlete's scores are based on the implement weight/height for their age group
- To account for differences in team size, the average score of each teams best-scoring 75% athletes will produce the final score.
 - The formula for this is – top 75% athlete total score / (team size x 0.75)
 - In the case where the team size is not wholly dividable into three-quarters, the number of athletes is rounded up to the nearest whole number (e.g., with a team size of 17, the total number of scoring athletes will be 13).
